Re: Bond Resolution for Additional Show Power and Transformer Replacement

Dear Chairman Joyce:

The MVP Arena respectfully requests approval of a bond resolution authorizing \$200,000 in 2023 for the installation of Additional Show Power and Transformer Replacement. \$100,000 was already approved for 2022, and that initial expense will be essentially centered in design and structural engineering evaluations. The total project cost will be 300,000. The following investment will help make the arena more appealing for larger shows to come and know we have the services to host them without renting extra equipment. There are also several step-down transformers that are aging and in need of replacement prior to another failure occurring.

This project has been included in the 2023 Capital Plan.

If you have any questions regarding this matter, please do not hesitate to contact me.

Sincerely,

Bob Belber
