

KATHY HOCHUL
Governor

MARK J.F. SCHROEDER
Commissioner

(518) 473-9324

March 12, 2024

Dear Members of New York's traffic safety community:

The Governor's Traffic Safety Committee (GTSC) is pleased to announce the opening of the 2025 traffic safety grant application period. As partners in our goal to eliminate injuries and fatalities on New York roadways, I encourage you to develop innovative programs to help promote increased traffic safety in all of our communities. Potential grantees are encouraged to submit applications for projects that enhance equitable traffic safety practices in our diverse communities.

Across the board, roadway fatalities and injuries are trending in the wrong direction, especially since the pandemic years of 2020 and 2021. These trends support the need to continue our efforts to alter dangerous behaviors on our roads and encourage measures to improve pedestrian safety. I urge you to make every effort toward helping us to save lives through traffic safety and to reach deeper into your communities to work with both established and new partners.

Traffic safety grant projects funded by GTSC have supported statewide efforts to reduce all types of crashes including those related to speed, impairment, motorcycles, occupant protection, bicyclists, pedestrians, and commercial motor vehicles. The implementation of programs that educate the public on the dangers of drowsy, impaired, distracted, and aggressive driving and the enforcement of traffic safety laws continue to make New York a national leader in highway safety.

Successful traffic safety grant programs in New York State can be largely attributed to the innovative and data driven programs that our grantees implement each year and from the effective collaboration among local, state, and federal partners. As you prepare your grant applications, please keep in mind that speed, impairment, and distraction remain the most common contributing factors in crashes and that vulnerable roadway users such as pedestrians and bicyclists account for a sizable share of roadway fatalities.

Your continued efforts and dedication to highway safety are valuable contributions toward making New York a safe state in which to live, work and travel.

Together, we will maintain our strong commitment to making our state's roadways safer for all. Please see the attached grant application information.

dmv.ny.gov

Applications are due by 11:59 pm on **May 1, 2024**. Please contact your GTSC Highway Safety Program Representative at (518) 474-5111 if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Mark J.F. Schroeder". The signature is written in a cursive style with a prominent initial "M" and a long, sweeping underline.

Mark J.F. Schroeder
Chair, Governor's Traffic Safety Committee and
Commissioner, NYS Department of Motor Vehicles

STATE OF NEW YORK GOVERNOR'S TRAFFIC SAFETY COMMITTEE 2025 GRANT PROGRAM DESCRIPTIONS AND APPLICATION INFORMATION

March 2024

I. Structured Programs - Child Passenger Safety and Police Traffic Services:

Child Passenger Safety (CPS) - These grants will continue to support the educational activities of child passenger safety programs through the four different initiatives or schedules: fitting stations, awareness trainings, car seat check events and car seat education & distribution programs for low-income families.

Please note: In Federal Fiscal Year 2025 there will be funding available for the purchase of a **limited number** of car seats/child restraints for use with Schedule A – Permanent Fitting Stations, Schedule C – Car Seat Check Events and Schedule D – Car Seat Education & Distribution Programs. Schedules A and C will require hands-on education pertaining to the proper use and installation of a car seat. In the event it is determined a car seat needs to be replaced, pre-established guidelines need to be followed before providing a replacement seat. Funds will also be

available for the purchase of a limited number of car seats for use with Schedule D – Car Seat Education & Distribution Programs. Schedule D will require the verification of low-income status as well as hands-on education pertaining to the proper use and installation of car seats. Additional in-classroom education about child passenger safety and child restraint systems is encouraged but not required.

Police Traffic Services (PTS) - The Federal Fiscal Year 2025 Police Traffic Services (PTS) grant program will provide funding to law enforcement agencies to conduct traffic enforcement. In addition to having a current mandatory seat belt use policy in place for police officers of the department, participation in the national Click It or Ticket seat belt enforcement mobilization is required. This program will also fund agencies to conduct traffic enforcement details based on the crash data of their local jurisdiction, with the goal of impacting motorist behavior and improving traffic safety within their communities.

The incentive funding for these structured programs is limited. GTSC may not be able to fund all of your initiatives. Applicants may request up to the maximum grant amount of \$40,000 for CPS and up to \$46,000 for PTS. There is no minimum request amount.

II. General Highway Safety Grants - The highway safety grant application for local, state and not-for-profit agencies is available to address a particular highway safety problem in their jurisdiction. This proposal requires applicants to submit a narrative outline of the problem with supporting data, details of the proposed activities with milestones and an evaluation plan.

Proposals must address one of the program areas included in the state's Highway Safety Strategic Plan, which can be found online at <https://trafficsafety.ny.gov/highway-safety-grant-program>. Program areas considered for the general Highway Safety Grant funding include: occupant protection; traffic enforcement; motorcycle safety; traffic records; community programs; programs that impact our younger drivers or older drivers; pedestrian safety; roadway safety and impaired driving.

In 2025, our impaired driving program will focus on statewide projects that support training, enforcement, and technology and state agencies' initiatives to support the efforts of the County STOP-DWI programs. We anticipate that available federal funding will once again be limited this year, so applications need to be detailed and supported by data.

Highway Safety Plan - The New York State Governor's Traffic Safety Committee prepares a triennial Highway Safety Plan (HSP). This plan is the road map for traffic safety professionals in the state and is based on issues and strategies identified by

the GTSC member agencies, other state and local agencies, law enforcement agencies and not-for-profit organizations. The HSP can be found online at

<https://trafficsafety.ny.gov/highway-safety-grant-program>. We invite you to contact the GTSC if you have suggestions for the HSP.

Problem Identification - Since successful programs are data-driven, we encourage you to use the crash and ticket data reports that are available for each county through an online database developed by the Institute for Traffic Safety Management and Research (ITSMR) with funding from the GTSC. The database, called the Traffic Safety Statistical Repository (TSSR), contains crash and ticket data from 2013 forward, including finalized crash and ticket data for 2022 and preliminary crash and ticket data for 2023 and 2024.

To access the TSSR, visit <https://www.itsmr.org/traffic-safety-statistical-repository/>. Several help tools are available on the site, including a User Guide, FAQ, Glossary of Terms and TSSR Directory. Please contact your Highway Safety Program Representative at the GTSC if you have questions.

Application Procedure - Due date for all applications is May 1, 2024. NFP agencies must register with and be pre-qualified in the New York State Statewide Financial System (SFS) before submitting a GTSC grant proposal. Proposals received from not-for-profit applicants that have not registered and are not pre-qualified in SFS on the proposal due date of 11:59 PM on May 1, 2024 cannot be evaluated. Such proposals will be disqualified from further consideration. If you need assistance with SFS enrollment or enrollment in the GTSC's eGrants, contact the GTSC.

Governor's Traffic Safety Committee

General instructions for preparing grant applications are included in the eGrants system. If your agency does not have a Project Director currently enrolled in eGrants, contact the GTSC for guidance. Frequently asked questions, an overview of the requests for proposals, application and review process can be found online at <https://trafficsafety.ny.gov/highway-safety-grant-program>.

Applications must be submitted using the GTSC eGrants system. The due date for General Highway Safety, Child Passenger Safety and Police Traffic Services grant applications is May 1, 2024. Applications submitted after May 1, 2024 will not be considered. Applicants must submit their proposals by changing the status of their completed 'In Process' proposal to 'Submit' on or before May 1, 2024.

If you have any questions or need any assistance preparing your grant application, please contact your GTSC Highway Safety Program Representative listed below or call (518) 474-5111.

The Governor's Traffic Safety Committee administers highway safety grant funding in accordance with 23 CFR Part 1300 Uniform Procedures for State Highway Safety Programs and 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and according to the guidelines published by the GTSC in the structured applications and the Guide to Preparing a Highway Safety Program applications. Grants are reviewed for approval based on the criteria stated on the application. In general, the review is based in part on past performance, agreement to perform requested activities, significance of problem identified, supported by data and rationale of proposed solution.
