Re: City of Albany Landfill Shared Service Agreement

Dear Chairwoman Cunningham:

The Water Purification District (District) is requesting authorization to enter into a shared service agreement with the City of Albany which would allow the Albany Landfill to discharge leachate to District for treatment. In exchange the landfill will accept incinerator biosolids ash along with grit in screenings from the both the District's treatment plants. There are no fees associated with this agreement as the services provided mutually benefit both the City and the County. This request is a continuation of a standing agreement between the District and the City of Albany and serves as a successful example of shared services among government agencies.

The agreement term will be for two (2) years based on the anticipated landfill closure in January 2028. Should the landfill remain open past the anticipated closure date the District request that the agreement have an option for a one year renewal to extend the agreement until the landfill is closed and no longer able accept waste material from the District.

Should you have any questions, please contact me at 518-447-1617.

Sincerely,

Angelo Gaudio, P.E.
Executive Director
