MEMORANDUM

TO: Nancy Heinzen – Director, Stormwater Coalition of Albany County
CC:
FROM: Laura DeGaetano, Sr. Natural Resource Planner
DATE: July 25, 2022
RE: SEQR Compliance
SUBJECT: Inter-municipal Agreement and MOU

I have reviewed the documentation provided for the above referenced project as it relates to State Environmental Quality Review (SEQR). The purpose of continuing this agreement and MOU between Municipal and non-municipal MS4s is to foster cooperation and to provide for the provision of the joint services related to compliance with the requirements of the MS4 program established under state and federal law specifically, and for matters related to protecting water quality and managing stormwater more generally. The term of this agreement is January 1, 2023-December 31, 2027.

Because there are some substantive changes from the original agreement, it was classified and reviewed as an Unlisted action under SEQR. Accordingly, a Short Environmental Assessment Form (see attached) was completed. Following this review, it has been determined that this action will not have a significant impact on the environment. Following the adoption of these findings by the Albany County Legislature, the Chairman's signature is needed on Part 3 of the EAF.

Should you have any questions or require additional information, please feel free to call me at your convenience.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

This project is an inter-municipal agreement and MOU that will improve water quality by working cooperatively toward compliance with the requirements of the MS4 program. There are no environmental impacts associated with this project.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	<input checked="" type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
