

Albany County 250th AMREV Commission

March 9th 2026
Hudson River Valley Greenway
625 Broadway
Albany, NY 12210

On behalf of the Albany County Executive and the Albany County Revolutionary War 250th Commission, we are grateful to be considered for the Heritage Development Grant from the Hudson River Valley National Heritage Area. The funds will be used in partnership with Discover Albany, Albany County's Destination Marketing Organization to enhance the marketing efforts surrounding the commemoration of America's 250th.

Since Albany County's 250th Commission formed nearly two years ago, marketing and collaboration have been the forefront of our mission. The Commission has marched in parades, tabled at community events, and presented at local libraries. We were most recently present in the organization of the *Knox's Noble Train of Artillery*. Commissioners provide individual brochures from heritage sites across the county, but we lack an easy itinerary and brochure that we can provide to visitors.

The investment in updating our assets, including recording equipment, will allow us to capture the rich heritage assets available in Albany County, particularly as Rev250 events occur across the County. The printed collateral and access to updated recording equipment will elevate the promotion of our revolutionary war assets across Albany County beyond the 2026 commemoration.

We thank you again for the funding and look forward in the ongoing commemoration of the American Revolution.

Sincerely,

Albany County 250th AMREV Commission
