**MEMORANDUM**

**TO:** Lisa Ramundo, Commissioner of Public Works  
**CC:** William Anslow, Engineering  
**FROM:** Laura DeGaetano, Sr. Natural Resource Planner  
**DATE:** February 6, 2023  
**RE:** Albany County Culvert Replacements and Rehabilitation  
**SUBJECT:** SEQR compliance for DPW Projects 2023 - Culvert Replacement on CR 111 Coeymans

---

I have reviewed the documentation provided for the referenced project as it relates to State Environmental Quality Review (SEQR). This project includes design and replacement of a culvert on CR 111 on a tributary to the Alcove Reservoir in the Town of Coeymans.

As described above, this project meets the criteria established for SEQR Type II actions pursuant to 6 NYCRR 617.5(c)(2)(24)(27). Accordingly, this action has been determined not to have a significant impact on the environment, and as such, no procedural compliance with SEQR beyond this determination is required at this time. It is important to note however, that notwithstanding the SEQR Type II status established above, the proposed culvert replacement may incur some degree of stream bed and stream bank disturbance. In addition, the culvert is on a Class A tributary to the Alcove Reservoir. Albany County DPW will apply for additional permits as needed.

Should you have any questions or require additional information, please feel free to call me at your convenience.
