Justification: (state briefly why legislative action is requested)

The County is an active participant in NYSERDA's Clean Energy Communities Program. This program awards points to participating municipalities through the completion of action items that actively fight climate change and aim to make communities more sustainable. The County has reached certain point thresholds that make it eligible for \$125,000 of grant funding through the program.

The \$125,000 that the County is eligible for will be used for the purchase and installation of electric vehicle charging stations that will be located at several different facilities throughout the County.

The County has received a contract for the award funding from NYSERDA that is ready for execution upon approval from the County Legislature.
