ECKERT MECHANICAL, LLC

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Business Activity

The Company is in the maintenance, service and construction of HVAC building systems and equipment business in Northeastern New York. As such, the Company grants credit to its customers, most of whom are located in this area.

b) Management's Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Due to the nature of the work required to be performed on many of the Company's performance obligations, the estimation of total revenue and cost at completion is complex, subject to many variables and requires significant judgment. As a significant change in one or more of these estimates could affect the profitability of the Company's contracts, the Company reviews and updates the Company's contract-related estimates regularly through a company-wide disciplined project review process in which management reviews the progress and execution of the Company's performance obligations and the estimate at completion. As part of this process, management reviews information including, but not limited to, any outstanding key contract matters, progress towards completion and the related program schedule and the related changes in estimates of revenues and costs. Management must make assumptions and estimates regarding labor productivity and availability, the complexity of the work to be performed, the cost and availability of materials, the performance of subcontractors, and the availability and timing of funding from the customer, among other variables. Actual results could differ from those estimates. These differences may be material.

c) Adoption of a New Accounting Standard - Revenue

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014 - 09, "Revenue from Contracts with Customers (Topic 606)". The ASU and all subsequently issued clarifying ASUs replaced most existing revenue recognition guidance in U.S. GAAP. The ASU also required expanded disclosures relating to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The Company adopted the new standard effective January 1, 2019, the first day of the Company's fiscal year using the modified retrospective approach. The prior year comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods; however, certain balances have been reclassified to conform to the current year presentation.

Revenue on the Company's contracts is recognized over time because of the continuous transfer of control to the customer. Revenue on fixed price contracts is recognized on the percentage-of-completion method based generally on the ratio of direct costs incurred-to-date to estimated total direct costs at completion. The Company uses the percentage-of-completion method to better match the level of work performed at a certain point in time in relation to the effort that will be required to complete a project. In addition, the percentage-of-completion method (an input method) is a common method of revenue recognition in the Company's industry. Based on the Company's evaluation process and review of its contracts with customers, the timing and amount of revenue recognized previously is consistent with how revenue is recognized under the new standard. No changes were required to previously reported revenues as a result of the adoption.

ECKERT MECHANICAL, LLC
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

d) Concentration of Credit Risk

Financial instruments which potentially subject the Company to a concentration of credit risk principally consist of cash and accounts receivable. The Company maintains cash balances with major financial institutions which at times exceed the federally-insured limit. In addition, the Company grants credit to its customers. The risk of loss with respect to contract receivable is the balance owed at the time of default as the Company does not generally require collateral.

e) Cash

For purposes of the statements of cash flow, the Company considers all highly-liquid debt instruments purchased with a maturity of 3 months or less to be cash.

f) Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are carried at their estimated collectible amounts. Trade credit is generally extended on a short-term basis; thus accounts receivable do not bear interest, although a finance charge may be applied to receivables that are past due. Accounts receivables are periodically evaluated for collectability based on past credit history with customers and their current financial condition. The Company charges off accounts receivable when it becomes apparent based upon age or customer circumstances that amounts will not be collected. An allowance for doubtful accounts has not been provided, as it is management's opinion that losses, if any would not be material to the financial statements.

g) Inventory

The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-11, "Simplifying the Measurement of Inventory", which resulted in a change in the way the Company measures the value of inventory. The Company adopted this change prospectively as required, and as a result inventory is stated at the lower of cost (first in – first out) or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The change did not have an impact on members' equity, income, or cash flow provided by or used in operations for any period presented.

h) Property and Equipment

Property and equipment are recorded at cost. Renewals and betterments of property are accounted for as additions to asset accounts. Repairs and maintenance charges are expensed as incurred. Depreciation is provided on the straight-line method for financial reporting and income tax purposes. Estimated useful lives are 5 to 15 years for autos, office furniture, equipment and leasehold improvements.

ECKERT MECHANICAL, LLC

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

i) Income Taxes

The Company has elected to be treated as a Limited Liability Company under the Internal Revenue Code and the New York State Corporation Tax Law. Under these elections, the income, generally, is taxed directly to the members.

Accounting standards prescribe a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. These standards also provide guidance on de-recognition of tax benefits, classification on the balance sheet, interest and penalties, accounting in interim periods, disclosure, and transition.

The Company has evaluated any uncertain tax positions and related income tax contingencies and determined uncertain positions, if any, are not material to the financial statements. Penalties and interest assessed by taxing authorities are included in operating expenses, if incurred.

The Company is no longer subject to examination by federal and state taxing authorities for years prior to December 31, 2016.

j) Advertising

Advertising costs are expensed as incurred.

k) Sales Tax

States impose a sales tax on all of the Company's sales to non-exempt customers. The Company collects that sales tax and remits the entire amount to the State. Sales taxes collected and remitted to the State are excluded from revenue and cost of sales.

l) Subsequent Events

The Company has evaluated subsequent events through March 11, 2020 which is the date the financial statements were available to be issued. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which have the potential to negatively impact the Company. The potential impact is unknown at this time. There are no additional material subsequent events which require recognition or disclosure.

2) ACCOUNTS RECEIVABLE

Accounts receivable consist of the following:

	<u>2019</u>	<u>2018</u>
Completed contracts	\$ 76,625	\$ 242,663
Uncompleted contracts	2,048,598	714,029
Trade	<u>475,974</u>	<u>517,304</u>
ACCOUNTS RECEIVABLE	<u>\$ 2,601,197</u>	<u>\$ 1,473,996</u>

ECKERT MECHANICAL, LLC

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

3) CONTRACT ASSETS AND LIABILITIES

Amounts classified as “Costs and estimated earnings in excess of billings on uncompleted contracts” and “Billings in excess of costs and estimated earnings on uncompleted contracts” on the balance sheet and statements of cash flow of the Company’s financial statements for the year ended December 31, 2018 have been reclassified as “Contract assets” and “Contract liabilities”, respectively, on the balance sheets and statements of cash flows for 2019 and 2018. In addition, contract assets include retainage amounts withheld from billings to the Company’s clients pursuant to provisions in our contracts. Billing practices are governed by the contract terms of each project based upon costs incurred, achievement of milestones or pre-agreed schedules. Billings do not necessarily correlate with revenue recognized using the percentage-of-completion method of revenue recognition. Contract assets include amounts due under retainage provisions, unbilled amounts typically resulting from revenue under contracts where the percentage of-completion method of revenue recognition is utilized, and revenue recognized exceeds the amount billed to the customer.

A summary of the Company's contract assets consists of the following as of:

	<u>December 31,</u> <u>2019</u>	<u>January 1,</u> <u>2019</u>
Retainage receivable	444,096	\$ 270,816
Costs and estimated earnings in excess of billings	<u>87,481</u>	<u>103,327</u>
CONTRACT ASSETS	<u>\$ 531,577</u>	<u>\$ 374,143</u>

The increase in contract assets was primarily attributable to the reclassification of retainage from accounts receivable to contract assets as of December 31, 2018 due to the adoption of Accounting Standards Update (“ASU”) 2014-09, offset by normal business operations for the fiscal year ended December 31, 2019.

Contract liabilities consist of amounts owed under retainage provisions and advance payments and billings in excess of revenue recognized and deferred revenue.

A summary of the Company's contract liabilities consists of the following as of:

	<u>December 31,</u> <u>2019</u>	<u>January 1,</u> <u>2019</u>
Retainage payable	\$ (68,186)	\$ (67,088)
Billings in excess of costs and estimated earnings	<u>(813,422)</u>	<u>(441,360)</u>
CONTRACT LIABILITIES	<u>\$ (881,608)</u>	<u>\$ (508,448)</u>

The increase in contract liabilities was primarily attributable to the reclassification of retainage from accounts payable to contract liabilities as of December 31, 2018 due to the adoption of Accounting Standards Update (“ASU”) 2014-09, offset by normal business operations for the fiscal year ended December 31, 2019.

The Company has a \$150,000 working capital line of credit expiring September 30, 2020, of which \$150,000 was unused at December 31, 2019. Advances on this credit line are payable on demand and bear interest equal to the one month LIBOR plus 475 basis points.

9) REVENUE

The Company enters into contracts with its clients that contain various types of pricing provisions, including fixed price and time-and materials. The Company recognizes revenues in accordance with ASU 2014-09, Revenue from Contracts with Customer, codified as ASC Topic 606 and the related amendments (collectively "ASC 606"). As such, the Company identifies a contract with a customer, identifies the performance obligations in the contract, determines the transaction price, allocates the transaction price to each performance obligation in the contract and recognizes revenues when (or as) the Company satisfies a performance obligation. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods and services to the customer. The consideration promised in a contract with a customer may include both fixed amounts and variable amounts (e.g., bonuses/incentives, penalties/liquidated damages, returns) to the extent that it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. We estimate the amount of variable consideration at the most likely amount to which we expect to be entitled. Our estimates of variable consideration are based on our assessment of legal enforceability, anticipated performance and any other information (historical, current or forecasted) that is reasonably available to us.

The Company provides quality of workmanship warranties to customers that are included in the sale and are not priced or sold separately or do not provide customers with a service in addition to assurance of compliance with agreed-upon specifications and industry standards. The Company does not consider these types of warranties to be separate performance obligations.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2019 AND 2018

REVENUE (Cont.)

Contracts are often modified to account for changes in contract specifications and requirements. The Company considers contract modifications to exist when the modification either creates new rights or obligations or changes the existing enforceable rights or obligations. The Company's contract modifications are for goods or services that are not distinct from existing contracts due to the significant integration provided in the context of the contract and are accounted for as if they were part of the original contract. The effect of a contract modification that is not distinct from the existing contract on the transaction price and the Company's measure of progress for the performance obligation to which it relates is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis. At December 31, 2019 there were no unapproved change orders.

10) ADVERTISING

Advertising expense was \$7,544 and \$3,820 for the years ended December 31, 2019 and 2018.

11) EMPLOYEES' PENSION, PROFIT SHARING AND RETIREMENT FUNDS

The Company contributes to a multi-employer defined benefit plan under the terms of a collective-bargaining agreement that covers its union-represented employees. The risks of participating in these multi-employer plans are different from single-employer plans in the following aspects:

- a) Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of other participating employers.
- b) If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.
- c) If the Company chooses to stop participating in some of its multi-employer plans, the Company may be required to pay those plans an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The Company's participation in the plan for the annual periods ended December 31, 2019 and 2018 is outlined in the table below. Unless otherwise noted, the most recent Pension Protection Act (PPA) zone status available in 2019 and 2018 is for the plan's year-end at May 31, 2019 and May 31, 2018 respectively. The zone status is based on information that the Company received from the plans and is certified by the plans' actuaries as one of the five categories based on, among other factors, the funded status of the plan. Plan zone categories are as follows:

(D) Critical and Declining Status (Deep Red Zone) - (1) the plan is in critical status and (2) the plan actuary projects the plan will become insolvent within the current year or within either the next 14 years or the next 19 years, as specified in law.

(C) Critical Status (Red Zone) – the plan is generally less than 65 percent funded

(S) Seriously Endangered Status (Orange Zone) – (1) the plan is in endangered status and (2) the plan has a funding deficiency in the current year or is projected to have one in the next six years.

(E) Endangered Status (Yellow Zone) – the plan is generally less than 80 percent funded.

(N) Not Endangered or Critical Status (Green Zone) – the plan is at least 80 percent funded.
