**Justification:** (state briefly why legislative action is requested)

The use of the NY-Alert notification system will provide Albany County with access to a digital notification platform on state contract. Working with NY-Alert Albany County will be the first capital region municipality to utilize this notification system created by Everbridge, which is the same company that provided emergency communication services in Florida during recent hurricanes. The system is capable of delivering secure real-time two-way notifications across a wide selection of electronic devices as well as landline telephones to individuals (can be expanded to the general public), departments, or geographically defined areas.
