

COUNTY OF ALBANY, NEW YORK

AMERICAN RESCUE PLAN ACT - EFFECTIVE SERVICE DELIVERY APPLICATION

For the past three years, Albany County has been leading our community through COVID-19 response, monitoring, and recovery. The infusion of \$1.9 trillion in flexible funds provided through the American Rescue Plan Act of 2021 (ARPA) allows local governments, like ours, the opportunity to invest in technology to support long-term recovery efforts while delivering better services to our constituents now and in the future.

To take advantage of this opportunity, the County is soliciting Departmental proposals for up to \$100,000 in ARPA funds for projects that will improve service delivery through investments in data analysis, program evaluation, process improvement, community engagement, and public accessibility to programs and services.

Applicants are encouraged to identify non-ARPA funding sources to complement their ARPA funding requests. Applications for projects with total budgets exceeding \$100,000 must identify all other funding sources that have been secured to support their project. While applicants are strongly encouraged to adhere to the \$100,000 funding cap, projects in need of more than \$100,000 in ARPA funds may be considered by the County Projects Subcommittee on a case-by-case basis if they are deemed to be high-impact and will be fully funded after receiving ARPA funds.

As you develop an application consider strategic technology investments your Department can make to ensure the required digital infrastructure is in place to provide stability for citizen-facing and backend services. Projects should target needs identified during the COVID-19 pandemic and should further improve your Department's ability to maintain successful continuity of operations while also supporting future needs.

Completed applications form should be emailed to: tvouzakis@capmark.org by November 3rd, 2023

Applicants are encouraged to include backup materials with their submissions that justify the project need, impact, and budget

<i>Project Name</i>	Digital Discovery Analysis Software/Hardware Investment & Video Conferencing Hardware Investment
<i>Department</i>	Public Defender's Office
<i>Project Manager</i>	Keith Bulatao
<i>Select ARPA Expenditure Category</i>	7: Administrative Administrative Expenses

1. Project Eligibility

Please identify which of the following categories best describes your project:

- 1) Program evaluation
- 2) Data analysis: resources to gather, assess, share, and use data
- 3) Technology infrastructure to improve access to/user experience of government IT systems and/or increase public access to services
- 4) Community outreach and engagement activities
- 5) Capacity building resources to support using data and evidence to improve service delivery
- 6) Equipment purchase to improve service delivery

The category that best describe our two-pronged project is 6) Equipment purchase to improve service delivery.

2. Project Overview

Summarize your proposed project including a description of how it will improve the way your department delivers services

Our proposed project is a two-pronged initiative that will directly enhance the way the Public Defender's Office delivers legal representation to the indigent clients we serve.

1) Digital Discovery Analysis Software/Hardware Investment

We propose an investment in digital discovery video and audio analysis software, and the computer hardware needed to run the software, that will improve the efficiency of and methods by which the Office analyzes e-discovery evidence related to our clients' cases. This process improvement in the Office's analysis of the continually growing volume of digital discovery evidence will directly increase the amount of time and effort that our attorneys and investigators can invest in other important aspects of providing the highest quality representation of our clients.

2) Video Conferencing Hardware Investment

We propose an investment in video conferencing hardware that will improve the logistics of setting up and quality of the Office's virtual meetings. The ability to easily set up and conduct high quality virtual meetings with the Office's clients and other players related to our cases is essential. The time savings provided by this investment in the Office's virtual meeting capacity (versus conducting in-person meetings) will directly increase the amount of time and effort that our attorneys and staff can invest in other important aspects of providing the highest quality representation of our clients.

3. Project Need

Please describe how your project responds to a need that was caused or exacerbated by the COVID-19 Pandemic

Digital Discovery Analysis Software/Hardware Investment

During and continuing after the COVID-19 pandemic, the ability of the Office to fill vacant staff positions has led to understaffing issues and, therefore, a need for each attorney, investigator, and other staff member to perform their duties as efficiently as possible. An investment in digital discovery video and audio analysis software, and the computer hardware needed to run the software, will enable our investigators and attorneys to more efficiently analyze the continually growing volume of digital discovery evidence associated with our clients' cases.

Video Conferencing Hardware Investment

With the decrease in traditional face-to-face, in-person meetings during and continuing after the COVID-19 pandemic, the need to easily set up and conduct high quality virtual meetings with the Office's clients and other players related to our cases has become essential. An investment in video conferencing hardware will enable the Office's attorneys, investigators, caseworkers and other staff to more efficiently conduct high quality virtual meetings.

COUNTY OF ALBANY, NEW YORK

AMERICAN RESCUE PLAN ACT - EFFECTIVE SERVICE DELIVERY APPLICATION

4. Project Implementation

Describe the major steps in your project implementation including coordination with any internal and external partners, especially coordination with the Division of Information Services.

The major steps in our project implementation include the following:

Digital Discovery Analysis Software/Hardware Investment

1) Research and Selection of Hardware and Software - In consultation with the Division of Information Services, the Office will research and select digital discovery analysis software and associated hardware that will best address improving digital analysis processes of the Office.

2) Purchasing of Hardware and Software - Requisitioning and purchase of selected items will be made.

Video Conferencing Hardware Investment

1) Research and Selection of Hardware and Software - In consultation with the Division of Information Services, the Office will research and select video conferencing hardware that will best address improving the logistics of setting up and conducting high quality virtual meetings.

2) Purchasing of Hardware and Software - Requisitioning and purchase of selected items will be made.

For IT-related project, have you consulted with the Division of Information Services?

☒ YES

☐ NO

5. Project Timeline

All ARPA funds must be expended by December 31, 2026. Please provide the estimated date that requested funds will be fully expended and highlight key project milestones

We expect funds to be fully expended by 12/31/23 (or as soon as funds are available) with the following key project milestones:

1) Research and Selection of Hardware and Software - Completed 11/2/23

Digital Discovery Analysis Software/Hardware Investment - Selected Products

- Topaz Video AI 4

- Topaz Photo AI 2

- Adobe Premiere Pro

- Dell Precision 5480 Laptops

Video Conferencing Hardware Investment - Selected Products

- Logitech MeetUp Video Conferencing Bundle

- Dell OptiPlex Micro 7010 Computer

2) Purchasing of Hardware and Software - Completed by 12/31/23 (or as soon as funds are available)

6. Project Impact

Please describe in detail how this investment in your Department will allow you to address the project need identified above and more effectively deliver services to the public. Describe whether the project directly or indirectly benefits County residents. Use quantifiable metrics where possible and discuss how project impact will be measured.

This investment in our Office will allow us to address the needs we identified above and more effectively deliver services to the public as follows:

Digital Discovery Analysis Software/Hardware Investment

An investment in digital discovery video and audio analysis software, and the computer hardware needed to run the software, will address the need for each attorney, investigator, and other staff member to perform their duties as efficiently as possible by reducing the amount of time spent analyzing the ever-increasing amounts of digital discovery related to our clients' cases. This reduction in discovery analysis time increases the amount of time and effort that our attorneys and investigators can invest in other important aspects of providing legal representation of our clients. This aspect of our project directly allows us to more efficiently and effectively deliver the highest quality representation to the indigent clients we serve.

Video Conferencing Hardware Investment

An investment in video conferencing hardware will address the need to easily set up and conduct high quality virtual meetings with the Office's clients and other case players. The time savings provided by this investment in the Office's virtual meeting capacity (versus conducting in-person meetings) directly increases the amount of time and effort that our attorneys and staff can invest in other important aspects of providing legal representation of our clients. This aspect of our project directly allows us to more efficiently and effectively deliver the highest quality representation to the indigent clients we serve.

7. Project Budget

Please Identify:

1) ARPA Funding Requested	\$10,697
2) Total Project Budget	\$10,697
3) Non-ARPA Funding Sources and Amounts	\$0
4) Recurring Costs	\$912 annually for renewal of Adobe Premier Pro licenses (2 users)

8. Project Sustainability

Will the project be sustained after ARPA funds are expended?

☒ YES

☐ NO

If yes, describe how your Department will address any ongoing project costs

Ongoing project costs will be addressed as follows:

It is anticipated that expenses for Topaz Video AI 4/Topaz Photo AI 2 software upgrades (if needed) and annual renewal of Adobe Pro Premier licenses will be funded by the Office's ILS Statewide Expansion grant (subject to negotiation with New York State Office of Indigent Legal Services).

Important Notes

Terms of Sale

This Quote will, if Customer issues a purchase order for the quoted items that is accepted by Supplier, constitute a contract between the entity issuing this Quote ("Supplier") and the entity to whom this Quote was issued ("Customer"). Unless otherwise stated herein, pricing is valid for thirty days from the date of this Quote. All product, pricing and other information is based on the latest information available and is subject to change. Supplier reserves the right to cancel this Quote and Customer purchase orders arising from pricing errors. Taxes and/or freight charges listed on this Quote are only estimates. The final amounts shall be stated on the relevant invoice. Additional freight charges will be applied if Customer requests expedited shipping. Please indicate any tax exemption status on your purchase order and send your tax exemption certificate to Tax_Department@dell.com or ARSalesTax@emc.com, as applicable.

Governing Terms: This Quote is subject to: (a) a separate written agreement between Customer or Customer's affiliate and Supplier or a Supplier's affiliate to the extent that it expressly applies to the products and/or services in this Quote or, to the extent there is no such agreement, to the applicable set of Dell's Terms of Sale (available at www.dell.com/terms or www.dell.com/oemterms), or for cloud/as-a-Service offerings, the applicable cloud terms of service (identified on the Offer Specific Terms referenced below); and (b) the terms referenced herein (collectively, the "Governing Terms"). Different Governing Terms may apply to different products and services on this Quote. The Governing Terms apply to the exclusion of all terms and conditions incorporated in or referred to in any documentation submitted by Customer to Supplier.

Supplier Software Licenses and Services Descriptions: Customer's use of any Supplier software is subject to the license terms accompanying the software, or in the absence of accompanying terms, the applicable terms posted on www.Dell.com/eula. Descriptions and terms for Supplier-branded standard services are stated at www.dell.com/servicecontracts/global or for certain infrastructure products at www.dell.com/en-us/customer-services/product-warranty-and-service-descriptions.htm.

Offer-Specific, Third Party and Program Specific Terms: Customer's use of third-party software is subject to the license terms that accompany the software. Certain Supplier-branded and third-party products and services listed on this Quote are subject to additional, specific terms stated on www.dell.com/offeringsspecificterms ("Offer Specific Terms").

In case of Resale only: Should Customer procure any products or services for resale, whether on standalone basis or as part of a solution, Customer shall include the applicable software license terms, services terms, and/or offer-specific terms in a written agreement with the end-user and provide written evidence of doing so upon receipt of request from Supplier.

In case of Financing only: If Customer intends to enter into a financing arrangement ("Financing Agreement") for the products and/or services on this Quote with Dell Financial Services LLC or other funding source pre-approved by Supplier ("FS"), Customer may issue its purchase order to Supplier or to FS. If issued to FS, Supplier will fulfill and invoice FS upon confirmation that: (a) FS intends to enter into a Financing Agreement with Customer for this order; and (b) FS agrees to procure these items from Supplier. Notwithstanding the Financing Agreement, Customer's use (and Customer's resale of and the end-user's use) of these items in the order is subject to the applicable governing agreement between Customer and Supplier, except that title shall transfer from Supplier to FS instead of to Customer. If FS notifies Supplier after shipment that Customer is no longer pursuing a Financing Agreement for these items, or if Customer fails to enter into such Financing Agreement within 120 days after shipment by Supplier, Customer shall promptly pay the Supplier invoice amounts directly to Supplier.

Customer represents that this transaction does not involve: (a) use of U.S. Government funds; (b) use by or resale to the U.S. Government; or (c) maintenance and support of the product(s) listed in this document within classified spaces. Customer further represents that this transaction does not require Supplier's compliance with any statute, regulation or information technology standard applicable to a U.S. Government procurement.

For certain products shipped to end users in California, a State Environmental Fee will be applied to Customer's invoice. Supplier encourages customers to dispose of electronic equipment properly.

Electronically linked terms and descriptions are available in hard copy upon request.

^DELL BUSINESS CREDIT (DBC): Offered to business customers by WebBank, who determines qualifications for and terms of credit. Taxes, shipping and other charges are extra and vary. The Total Minimum Payment Due is the greater of either \$20 or 3% of the New Balance shown on the statement rounded up to the next dollar, plus all past due amounts. Dell and the Dell logo are trademarks of Dell Inc.
