DATE: April 2, 2026

RE: Purchase of a MAXMOWER

Public Works recommends the purchase of one (1) MaxMower from the sole bidder ATMAX Equipment Co. for \$345,819.94 with Capital Fund Account HHTK.

A MaxMower is a specialized, heavy-duty industrial boom mower designed for vegetation management, particularly on slopes and in ditches.

Key Features:

- **Exceptional Stability:** Engineered with a low center of gravity and counterweights positioned opposite the boom, allowing it to work safely on steep, challenging terrain.
- **Visibility and Control:** The cab-forward design, combined with a 7-inch control display and 180-degree helical actuator for the boom, ensures precise control and safety.
- **Maneuverability:** Features three steering modes to enhance productivity in tight areas.
