## **MEMORANDUM**

**TO:** Lisa Ramundo, Commissioner of Public Works  
**CC:**  
**FROM:** Laura DeGaetano, Sr. Natural Resource Planner  
**DATE:** June 8, 2023  
**RE:** Albany County Culvert Replacements and Rehabilitation  
**SUBJECT:** SEQR compliance for DPW Projects - Culvert Replacement on CR 358, Rensselaerville

---

I have reviewed the documentation provided for the referenced project as it relates to State Environmental Quality Review (SEQR). This project includes rehabilitation of a culvert on CR 358 by adding new steel beams with a concrete deck or a 3-sided concrete box using existing substructure. This will include new railings and associated site work.

As described above, this project meets the criteria established for SEQR Type II actions pursuant to 6 NYCRR 617.5(c)(2). Accordingly, this action has been determined not to have a significant impact on the environment, and as such, no procedural compliance with SEQR beyond this determination is required at this time.

Should you have any questions or require additional information, please feel free to call me at your convenience.
