Justification: (state briefly why legislative action is requested)

Shaker Place as part of its renovation and new construction installed the Ronco Call Bell and Communication System. Since that time we have been evaluating the best equipment to be utilized by our staff to communicate with each other and the residents, a device that integrated with the Ronco system and will enable our staff to be able to communicate with each other no matter what the shift they are working. Due to the size of the resident units staff need to be able to have constant communication with each other and this system will allow that to happen and will give us the ability to provide prompt care to residents and be able to communicate in any emergency. The total cost will be \$115,000.00, which will include the possibility of additional expenses after the warranty period for equipment repairs and replacement. The cost per year, excluding repairs and replacement, will be \$21,391.00.
