

NYS Office of General Services
Road Salt, Treated Salt, & Emergency Standby Road Salt (Statewide)

Contract Terms & Info
Contract Term: September 12, 2025 - August 31, 2026

**Summary of Contract Terms &
Information for Authorized Users**

NOTE: The following information has been provided for quick reference purposes for Authorized Users utilizing the NYS OGS road salt contracts.

Authorized Users should refer to the specific Award documents pertaining to their county & salt type for comprehensive information regarding contract language and terms.

Contact the OGS Contract Manager by email with any questions or concerns: OGS.sm.SST_roadsalt@ogs.ny.gov

Delivery Schedule

The Delivery Schedule is provided as a guide to indicate proposed delivery points and estimated annual requirements for each Authorized User on this contract.

The Delivery Schedule for this Solicitation is included as a link on all road salt contract award landing pages.

An Authorized User may not utilize the OGS road salt contracts unless the entity has submitted a filed requirement tonnage amount for the current contract term.

Contractors shall be obligated to add to the delivery schedule any State Agency that submits filed requirement(s) on or before November 30 of the Contract term. Any State Agency that submits filed requirement(s) after November 30 shall be eligible to be added to the delivery schedule and receive deliveries at the Contractor's discretion only.

Any political subdivision (County, Town, Village, School District, etc) or other non-state entity which has not filed a requirement with OGS Procurement Services as of the close of the filed requirements period annually, shall be eligible to be added to the Delivery Schedule and receive deliveries at the Contractor's discretion only.

Delivery Timetable

Completed delivery, at the latest, is required as follows:

- 1) Contractor is required to deliver orders of 600 tons or less* within three (3) Business Days (*if the entire order totals less than 600 tons)**
- 2) Contractor will be required to deliver a minimum of 200 tons per day after the initial 600-ton delivery until the order is fulfilled**
- 3) Multiple orders placed for the same delivery site that overlap will be viewed as a single order, still subject to the overall 200 tons per day minimum delivery.**

Orders must be placed before 2 p.m. Any orders placed after 2 p.m. shall be deemed as being placed the next business day.

For specific information regarding orders placed by your entity, contact the awarded Contractor for that county & salt type.

If the scheduled delivery is to occur on a holiday or weekend, the next weekday will be the delivery date, unless the Contractor and the ordering agency mutually agree differently.

Contractor is obligated to honor the Delivery Timetable from September 1 through the following May 31 of each Contract term. However, from June 1 through August 31 of each Contract term, delivery shall be at the discretion of the Contractor.

Delivery Terms

If no representative of the Authorized User is available at the time of delivery, the Contractor shall make a reasonable effort to notify the Authorized User of the delivery, either by phone or by email.

Upon inspection of delivered salt, the material shall be uniform in appearance, free flowing and free from visual evidence of foreign matter including but not limited to dirt, stone, chips, trash or any other material that could reasonably be expected to interfere with the use, handling or storage of the salt. Salt shall be received in a free-flowing and usable condition.

Salt can be rejected at the time of delivery and sent back to the Contractor if the load is visibly wet, or otherwise contaminated.

A non-complying product price deduction is not to be assessed unless the proper analysis and test procedures are followed.

The right is reserved to consider truckloads of salt delivered by the Contractor to any one Authorized User on a single day to be a single delivery. Price deductions imposed because of contamination may be imposed on the total day's delivery.

Agencies will submit to OGS supporting documentation for price deduction in regard to contamination.
OGS Procurement Services will review and will have final approval as to price deduction applied.

Weight Tickets - All shipments of bulk salt shall be accompanied by a weight ticket of a licensed weigh master indicating the producer, net weight of the delivery, and in the case of bulk delivery, the stockpile source. Tickets should be completely filled out with hauler name (printed and signed) and AU rep name printed and signed (if AU rep is present at the time of delivery).

Handwritten weights are not acceptable.

Minimum/Maximum Obligations

The minimum order for this Contract is 22 tons.

Authorized Users are obligated to take 50% minimum of their filed requirements during the contract period and Contractors are obligated to deliver up to 130% of the filed requirement for Road Salt and Treated Salt.

Authorized Users with multiple delivery sites (e.g., NYSDOT, County Highways and NYS Thruway) shall have their minimum/maximum delivery quantities determined based on the sum of all their sites serviced by a Contractor per salt type.

When the Authorized User is not able to take the minimum required amount, the Contractor will store salt for the Authorized User until December 31 of that calendar year for a one-time per ton storage fee (i.e., user did not take minimum by 8/31/26 – Contractor will store through 12/31/26).

If storage is necessary for an Authorized User as of January 1, 2027, the salt Contractor may offer storage at a per month/per ton rate.

Authorized Users can refer to Contractor Information tab of this document for the Award pertaining to their specific county & salt type, for exact price/ton fees.

Delivery of stored salt between 9/1/26 and 5/31/27 shall meet the delivery requirements in Section, *Delivery Terms*.

Buy Against

Contractors must supply Product in accordance with the terms of the Contract and instructions on Purchase Orders. In the event of the Contractor's failure to deliver in accordance with Contract requirements, purchase of a specific quantity (pre-determined by OGS), utilizing the Emergency Standby Provision or the open market at the Contractor's expense may be authorized by OGS. Such authorized purchases will result in chargeback of the cost above the Contract price to the Contractor who fails to comply with delivery terms.

The Authorized User must make OGS Procurement Services aware of the non-delivery and allow OGS Procurement Services to ascertain if immediate delivery can be made by the Contractor prior to obtaining authorization from OGS Procurement Services to make an Emergency Standby purchase or a purchase on the open market.
