Company History

In April, 2011 County Waste was acquired by Waste Connections, Inc. (WCI) based in Houston, Texas. Waste Connections is the 3rd largest solid waste and recycling company in the US serving over 2 million residential, commercial and industrial customers in 31 states. With this change comes added financial and professional support for County Waste. However, Waste Connections has been, since its inception in 1997, a much decentralized company dedicated to operating each location as independently managed facilities. The company was founded on this decentralized philosophy which differentiates us from other National solid waste companies.

Organizations and community partnerships work when the company providing the service is staffed with individuals possessing strong management and technical skills, who are driven by the desire to deliver quality service to the community and the contracting agency. We are proud of the team we have.

The County Waste and Waste Connections corporate philosophy is based on the belief that the solid waste and recycling service business is a local business managed by professionals living and working in the communities we serve. WCI strives to provide service excellence for those communities that place their trust in our company and are always dedicated to putting our customers first. We look to technology and growth to help our customers, employees and shareholders "Connect with the Future". As a public

company we have the resources to meet every customer's needs in a cost effective and environmentally compatible manner. We understand the markets, the philosophy and the unique needs of the customers we serve whether they be industry, commercial accounts, municipal jurisdictions or residential subscribers.

Waste Connections is traded on the NYSE exchange under the symbol WCN. The company's strategic objective is to build a leading solid waste services company in secondary markets focusing on customer service excellence and the utilization of improved technology to enhance efficiency within the markets we serve.

Both corporate wide and in Albany, we are committed to improving the environment for the future of the communities we live in and serve. We believe that our services play an integral part of improving the environment and are always mindful of having the most cost-effective waste management solutions for our customers. In addition, we are committed to the safety of our workers and have programs in place to continually upgrade our risk management and environmental policies.

Our ability to effectively and ethically operate has been driven by our emphasis on integrity since the inception of the Company. Integrity is imperative throughout the organization, not only in the financial and accounting arena but also in compliance with laws governing our employees, anti-trust and competitive practices. It also applies to our environmental track record as we work with regulators in a large number of states. We are committed to this value and continuously strive to have the systems in place to ensure the preservation of integrity.

Revenues in 2017 increased to \$5 billion from \$1.93 billion in 2013, as a result of organic growth in solid waste, plus increased E&P waste activity. Solid waste revenues increased 5.4%, primarily due to internal growth. Solid waste internal growth increased to 4.3% in 2014, from 3.1% in 2013. Pricing growth was 0.1 percentage points lower than in 2013, due to higher core prices offset by lower fuel, materials and environmental surcharges. Increases in landfill and hauling volumes contributed to total volume growth increasing to 2.1% in 2014 from 0.7% in 2013.

County Waste is the largest waste collection and recycling company in the Capital region, with operations in New York from Orange County north to Ticonderoga and East and West of the Hudson Valley. County Waste serves a greater number of residential and commercial customers located within the Albany Planning Unit (Albany, Rensselaer, Schenectady, and Saratoga Counties) than any other waste hauler.

Our company's customer base includes approximately 11,000 commercial and industrial customers and more than 180,000 residential customers. In addition to waste collection services, County Waste also operates two landfills, four transfer stations and two recycling facilities with three hundred and ninety full time employees.

County Waste serves the following counties in New York: Albany, Northern Columbia, Fulton, Montgomery, Rensselaer, Schenectady, Schoharie, Saratoga, Orange County, Ulster County, Greene County, Columbia County, Warren County, Washington County, Fulton County and Northern Saratoga County.

Our largest recycle facility, Sierra Processing has operated in the area for over a decade. Additionally, we began operations of our new state-of the art single stream recycling facility near the Port of Albany in mid-October, 2010. The facility is the largest and most advanced processing plant of its kind in the Northeast USA. In December of 2012 the plant was expanded to double the capacity and to process commercial source separated material as well as commingled commercial recyclable material.

Waste Connections, Inc is a publicly traded corporation traded on the New York Stock Exchange under the symbol "WCN". County Waste is a wholly owned subsidiaries of Waste Connections, Inc. Waste Connections Dun and Bradstreet number is 799869474.

Mark Ceresa currently serves as the Division Vice President responsible for Waste Connection's operations in New York and Vermont. Mark has worked in the solid waste and recycling industry for 9 years, all of which with Waste Connections. Prior to coming to New York, Mark was responsible for the Waste Connections hauling and landfill operations in Greenville South Carolina. Mark has also served as a District Manager for Waste Connections in Wichita, KS, and was part of the Region staff in Denver, CO.
