Re: Request for approval of a contract with Daktronics
 For the replacement of the existing marquee on the Southeast Corner of the TU Center

Attached is a RLA that requests approval to have Albany County enter into an agreement with Daktronics using the Sourcewell Contract pricing and with compliance of all requirements including the apprenticeship programs. Daktronics will be separating the work needed for this replacement project with Electrical, Steel-Installation and manufacturing of the marquee as well as shipping, which meets the Wicks Law requirements as well.

The total cost for this project is \$541,551. The existing marquee no longer operates and parts are no longer available to replace burned out video panels. In order to fulfill advertising commitments on the marquee we are asking for this contract to be approved so the manufacturer (Daktronics) can get their factory working on building this marquee with a hopeful spring installation.

Thank you for your assistance with this issue.
