Resolution/Law Number and Date: 134 of 2019

DESCRIPTION OF REQUEST: (state briefly why legislative action is requested)

Continuation of a long term shared service agreement with the City of Albany Landfill. This agreement allows the City of Albany to discharge landfill leachate to the District's North Plant for treatment. In exchange the landfill accepts the District's incinerated biosolids ash, grit and screenings from both treatment plants. This is a no cost agreement that benefits both the City and the District and has been a successful example of shared services between local government agencies.
