Justification: (state briefly why legislative action is requested)

The Legislature previously approved acceptance of a \$80,000 grant from the New York State Council on the Arts to install a new air-source heat pump HVAC system in the Meeting House. This system is scheduled to be installed in April-May 2023. Due to rising costs, the energy recovery ventilator was eliminated from this phase of the project. This new grant request to the National Endowment for the Humanities will support the installation of the ERV, and the addition of blown-in cellulose insulation between the Meeting Hall and attic of the building. These measures will further improve our energy efficiency and support our preservation efforts by stabilizing temperature and humidity throughout the building.
