Get superb rigidity and
sound absorption in this
lightweight deck.

Give your performers the added confidence that comes from StageRight Decks. Made of high-strength outer layers bonded to a honeycomb core, the Decks are so rigid that performers think they're on the permanent floor. And they're remarkably quiet, too. The honeycomb core absorbs resonance to reduce the "drumhead" effect that

can detract from a performance. Lightweight construction means added safety for your crews. The decks are reversible, giving you a choice for each event and doubling their wear life. And the decks are interchangeable on various StageRight support systems, allowing you to stage nearly any type of indoor event.

Decks may be used interchangeably on various StageRight support systems.

Need to move your stage a few feet? Or make room for another event without having to breakdown and rebuild an entire stage? Simply engage the easy-leverage casters on the ME-3750 Rolling Stage and roll it wherever you need it. Even the initial setup and final teardown of this stage is easy. Each ME-3750 unfolds to support three 4' X 8' Decks

(creating a 12' X 8' platform). Plus, it supports the end or corner of up to 12 more bridging Decks, allowing you to create exactly the size stage you need. The decks bridge front-to-back, and side-to-side, so there are fewer supports to handle, saving you valuable setup and leveling time.
