9. Identify any new initiatives and/or eliminated programs, and reimbursements associated with those programs.

In 2026, DPW will be implementing an online “Citizen Concern” reporting platform. This platform will enable us to track citizen concerns more efficiently. We will also be implementing a new online permit application platform which will streamline the permitting process by enabling customers to pay online. With the acquisition of a new paver in 2025, we will also be taking on paving operations along our rail trail and at our subdivision parking lots. This will save us money over hiring out paving operations for these projects.

10. Identify all County vehicles used by your department. Include the title of any employee(s) assigned to each vehicle and the reason for the assignment of a County vehicle to that employee.

14. Please describe the biggest risk your department faces and the actions you have taken (or will take in **2026**) to better understand that risk and mitigate it.

A risk the Department continues to face are more severe and locally concentrated weather events. These events are causing flooding, scour and washouts. From an operations standpoint, the County Department of Public Works mobilizes wheel loaders, chippers and chainsaws, throughout the County to ensure the ability to clear trees and other debris at a moment's notice. From an infrastructure standpoint, the Department is working on Capital Plan projects to replace undersized and deteriorated infrastructure.

15. Please list performance indicators and metrics used by your department and current statistics for those metrics.
